

**New  
for 2026**

# LifeMark<sup>®</sup>-100M

Modular Auto Layout System

- Compact & Lightweight
- Light-Duty Pickup Compatible
- Easy Customer Installation
- Dual-Side Layout Capability
- Proven LifeMark<sup>®</sup> Technology
- Vehicle-Powered Electric Drive

*Proven LifeMark<sup>®</sup> automation—simplified, modular, and built for lighter-duty trucks.*

P. 215-703-5510 / 44 Industrial Way #12 / Doylestown, PA 18964 / [LimnTech.com](http://LimnTech.com)

*The LifeMark®-100m delivers proven LifeMark® automation in a compact, modular system designed for easy installation, lighter-duty trucks, and global deployment.*

- **Compact, Lightweight Modular Design**

Under 500 pounds with a compact folded footprint, reducing shipping cost while simplifying handling, transport, and storage.

- **Designed for Light-Duty Pickup Trucks**

Optimized for smaller pickup platforms, expanding automated layout to vehicles with lower capacity and simpler integration requirements.

- **Simplified Design, Easy Customer Installation**

Designed for customer installation with minimal vehicle integration, avoiding costly customization and eliminating factory truck transport.

- **Folding, Retractable Dual-Side Layout Carriage**

Single carriage provides layout from either side of the vehicle and retracts and folds for transport or storage.

- **Proven LifeMark®-100 Technology Platform**

Uses the same GNSS, RTK, cellular, AI, computing, and application mechanics as the full-size LifeMark®-100.

- **Vehicle-Powered Electric System**

24-volt electric drive powered by the vehicle electrical system, reducing vehicle component and capacity requirements.

PAVEMENT MARKING AUTOMATION

**GNSS • RTK • Cellular • AI • Tablet-Based Operation**
